Professional Summary

Data Analytics and Engineering Apprentice proficient in SQL and Python, with hands-on experience driving audit tasks using Python, SQL, and Excel, and delivering the Data Currency project with Python, SQL, Excel, Git/GitHub, and Jenkins. Enthusiastic about applying these skills to solve real-world problems.

Experience

Fidelity Business Services India (FBSI)

Bengaluru, Karnataka

Data Analytics and Engineering Apprentice

Sept 2025 – Present

Project: Audit Work on Workspace Database

- Developed Python scripts with Snowflake connectivity to scan over 20K tables, identifying columns containing Personally Identifiable Information (PII) and tables created by users with PII access.
- Identified tables unused for more than 60 days and tables exceeding 10 GB in storage, and sent automated alerts to table owners requesting deletion or cleanup.
- Automated naming-convention validation mechanisms to identify workspace tables deviating from enterprise standards by verifying employee Corporate ID prefixes.

Technologies: Snowflake SQL, Snowflake Scripting, Python, RegEx, Data Governance

Project: Data Currency Dashboard Integration

- Expanded a critical data currency dashboard enabling business users across 4 Data Steward squads to monitor real-time view refresh performance and estimate expected data freshness.
- Integrated automated metadata logging into Snowflake tracking tables to dynamically feed dashboard visual metrics on Tableau, providing end-to-end logging visibility to stakeholders.

Technologies: Snowflake SQL, Python, Data Lineage, Tableau, Git/GitHub, Jenkins, Control-M

Education

KS Institute of Technology

Bengaluru, Karnataka

Bachelor of Engineering in AI and ML — CGPA: 8.8

Oct 2021 – July 2025

Technical Skills

Data Technologies: Snowflake (SQL), Excel, Tableau

Languages & Concepts: SQL, Python, Java

Developer Tools: Git/GitHub, Jenkins, Control-M, VS Code, Jupyter Notebook

Platforms: Alation, Confluence

Frameworks & Libraries: Pandas, NumPy, Matplotlib, Scikit-Learn

Cloud & Infrastructure: AWS

Soft Skills: Communication, Teamwork, Problem-Solving, Attention to Detail

Projects

Traffic Analysis System (TASS)

FastAPI, React.js, Google Maps API, OSMnx

- Developed a full-stack intelligent traffic analytics and route optimization platform for Bangalore city.
- Integrated Google Maps and OSMnx APIs to provide real-time traffic-aware route suggestions.

MedTrack

MERN Stack, JWT, Git

- Built a full-stack web app for medicine inventory tracking with automated expiry alerts.

Internships & Training

IoT Intern – Cranes Varsity

Bengaluru, Karnataka

Hands-on with Python, Micropython, Sensors, and IoT tools

Oct 2023 – Nov 2023

- Built a real-time IoT project using ESP32 with sensor integration.
- Implemented MQTT protocol for device-cloud-user communication.
